

[China Woltman type water meters, Turbine water meters, Industrial water meter Manufacturer, Supplier, Factory, Exporter in china](#)

Woltman type water meters are accurate in large sizes and widely used in 2" (50mm) to 20" (500mm) sizes for commercial and irrigation uses.

Woltman type water meters use water to push the impeller. The impeller rotation speed is in relation to the velocity of water flow.

Woltman type water meters generally have a water strainer that can protect the impeller from getting clogged.
